Movies

MapKit

iOS: MapKit
and Movies

Tommy
MacWilliam

Keepin' it
Stylin'

MapKit

Core Location

Notification
Center

Movies

- ▶ Google Maps for iOS!
- ▶ defined in `MapKit/MapKit.h`
- ▶ also need `MapKit.framework`

Defining Areas

iOS: MapKit
and Movies

Tommy
MacWilliam

Keepin' it
Stylin'

MapKit

Core Location

Notification
Center

Movies

- ▶ `CLLocationCoordinate2D`: **struct containing** latitude **and** longitude
- ▶ `MKCoordinateSpan`: **struct containing** latitudeDelta **and** longitudeDelta
- ▶ `MKCoordinateRegion`: **struct containing** center **and** span

Using Areas

iOS: MapKit
and Movies

Tommy
MacWilliam

Keepin' it
Stylin'

MapKit

Core Location

Notification
Center

Movies

▶ MapCenterExample

Annotations

iOS: MapKit
and Movies

Tommy
MacWilliam

Keepin' it
Stylin'

MapKit

Core Location

Notification
Center

Movies

- ▶ **pushpins with popovers**
- ▶ `MKPointAnnotation` **defines model for pin**
 - ▶ `coordinate, title, subtitle`
- ▶ `addAnnotation` **to** `MapView`

Annotations

iOS: MapKit
and Movies

Tommy
MacWilliam

Keepin' it
Stylin'

MapKit

Core Location

Notification
Center

Movies

▶ MapAnnotationExample

Custom Annotation Models

iOS: MapKit
and Movies

Tommy
MacWilliam

Keepin' it
Stylin'

MapKit

Core Location

Notification
Center

Movies

- ▶ create a new class implementing `MKAnnotation`
 - ▶ must expose `coordinate`, `title`, and `subtitle`

Custom Annotation Views

iOS: MapKit
and Movies

Tommy
MacWilliam

Keepin' it
Stylin'

MapKit

Core Location

Notification
Center

Movies

- ▶ **same paradigm as** `UITableViewCell`s
- ▶ `MKMapViewDelegate` **declares methods that create annotations**
 - ▶ be sure to connect `MapKit` delegate

Custom Annotation Views

iOS: MapKit
and Movies

Tommy
MacWilliam

Keepin' it
Stylin'

MapKit

Core Location

Notification
Center

Movies

- ▶ `mapView:viewForAnnotation:` **just like**
`tableView:cellForRowAtIndexPath:`
 - ▶ **more caching with**
`dequeueReusableAnnotationViewWithIdentifier`

Custom Annotation Views

iOS: MapKit
and Movies

Tommy
MacWilliam

Keepin' it
Stylin'

MapKit

Core Location

Notification
Center

Movies

- ▶ `MKPinAnnotationView` replaces `UITableViewCell`
 - ▶ `pinColor`
 - ▶ `animatesDrop`
 - ▶ `canShowCallout`
 - ▶ `rightCalloutAccessoryView`

Delegate Methods

iOS: MapKit
and Movies

Tommy
MacWilliam

Keepin' it
Stylin'

MapKit

Core Location

Notification
Center

Movies

- ▶ `mapView:annotationView:calloutAccessoryControlTapped`
- ▶ `mapView:regionWillChangeAnimated:`
- ▶ `mapView:didDeselectAnnotationView:`

Custom Annotations

iOS: MapKit
and Movies

Tommy
MacWilliam

Keepin' it
Stylin'

MapKit

Core Location

Notification
Center

Movies

▶ CustomAnnotationsExample

Overlays

iOS: MapKit
and Movies

Tommy
MacWilliam

Keepin' it
Stylin'

MapKit

Core Location

Notification
Center

Movies

- ▶ define arbitrary lines and shapes
 - ▶ `CLLocationCoordinate2D` still defines points
- ▶ `MKPolyline`, `MKCircle`, `MKPolygon`

Overlays

iOS: MapKit
and Movies

Tommy
MacWilliam

Keepin' it
Stylin'

MapKit

Core Location

Notification
Center

Movies

▶ OverlayExample

Core Location

iOS: MapKit
and Movies

Tommy
MacWilliam

Keepin' it
Stylin'

MapKit

Core Location

Notification
Center

Movies

- ▶ event-based framework to get current location
- ▶ defined in `CoreLocation/CoreLocation.h`
- ▶ also need `CoreLocation.framework`

Configuration

iOS: MapKit
and Movies

Tommy
MacWilliam

Keepin' it
Stylin'

MapKit

Core Location

Notification
Center

Movies

- ▶ **configure using `CLLocationManager`**
 - ▶ `distanceFilter`: **distance device needs to move before updating**
 - ▶ `desiredAccuracy`: **GPS data accuracy**
 - ▶ `startUpdatingLocation`
- ▶ `stopUpdatingLocation` **to conserve battery!**

Delegate

iOS: MapKit
and Movies

Tommy
MacWilliam

Keepin' it
Stylin'

MapKit

Core Location

Notification
Center

Movies

- ▶ CLLocationManagerDelegate **defines callback methods**
- ▶ `locationManager:didUpdateToLocation:fromLocation:`

Core Location

iOS: MapKit
and Movies

Tommy
MacWilliam

Keepin' it

MapKit

Core Location

Notification
Center

Movies

▶ CoreLocationExample

Notification Center

iOS: MapKit
and Movies

Tommy
MacWilliam

Keepin' it
Stylin'

MapKit

Core Location

Notification
Center

Movies

- ▶ implementation of the observer design pattern
 - ▶ remember broadcasts in Scratch?

Notification Center

iOS: MapKit
and Movies

Tommy
MacWilliam

Keepin' it
Stylin'

MapKit

Core Location

Notification
Center

Movies

- ▶ objects register to listen to notifications
- ▶ another object broadcasts a notification
- ▶ all objects listening fire a callback

Notification Center

iOS: MapKit
and Movies

Tommy
MacWilliam

Keepin' it
Stylin'

MapKit

Core Location

Notification
Center

Movies

▶ NotificationCenterExample

MediaPlayer

iOS: MapKit
and Movies

Tommy
MacWilliam

Keepin' it
Stylin'

MapKit

Core Location

Notification
Center

Movies

- ▶ **media playback framework**
- ▶ **defined in `MediaPlayer/MediaPlayer.h`**
- ▶ **also need `MediaPlayer.framework`**

Movie Player

iOS: MapKit
and Movies

Tommy
MacWilliam

Keepin' it
Stylin'

MapKit

Core Location

Notification
Center

Movies

- ▶ `MPMoviePlayerController` manages video playback
- ▶ needs to have a `frame`, or can't view video

Player Notifications

iOS: MapKit
and Movies

Tommy
MacWilliam

Keepin' it
Stylin'

MapKit

Core Location

Notification
Center

Movies

- ▶ `MPMoviePlayerContentPreloadDidFinishNotification`
- ▶ `MPMoviePlayerPlaybackDidFinishNotification`
- ▶ `MPMoviePlayerPlaybackStateDidChangeNotification`
- ▶ `MPMoviePlayerScalingModeDidChangeNotification`

Movie Player
